

CELEBRATING SUCCESS

MARCH 2025

Well done Team D2!

Radical Cost Savings

Flintshire Council's partnership with D2 Propco, and its provision of temporary homeless accommodation, has been described as a key cost-saving measure in their 25/26 budget.

This collaboration, along with other cost saving measures is expected to save the Authority circa £563,000.

While all Councils face challenging times, it's great to know that our services not only provide quality accommodation, but a cost saving that is so dearly needed.

First homes in England

Since being founded in 2017, D2 have developed strong, positive relationships with Local Authorities across Wales, providing high-quality, homely accommodation and support to potentially vulnerable adults and young people. Our endeavours have resulted in huge cost savings to each Local Authority as highlighted above.

We are proud and excited to share the news of our first homes in England...yes, we have crossed the border!

It will be great to expand our reach and impact even further over the coming years..
